

ANNEX 37F**MOBILE REPAIR PARTY****1. Mobile Repair Party Tool Bags**

In order to conduct the tasks detailed above and carry out defect rectification the MRP must have access to Mechanical and Electrical tool bags which must be taken to all incidents. These bags must contain sufficient tools and equipment to allow repairs on a wide range of systems and remove the need to search around the ship for extra tools. The minimum contents of each bag is provided below.

2. Mechanical Toolbag

- a. Adjustable spanners.
- b. Selection of open end and ring spanners.
- c. Rubber sheeting and whipping twine.
- d. Pipe repair strapping tape.
- e. Sharp knife.
- f. Hacksaw.
- g. Insulated pliers.
- h. Insulating tape.
- i. Selection of screwdrivers.
- j. Marker pen.
- k. Pen and pencil.

3. Electrical Toolbag

- a. Adjustable spanners.
- b. Selection of open end and ring spanners.
- c. GTPME equipment (BM80).
- d. Insulated rubber gloves.
- e. Sharp knife.
- f. Hacksaw.
- g. Insulated pliers.

- h. Self-amalgamating tape.
- i. Phase identification tape (red, yellow and blue).
- j. Selection of screwdrivers.
- k. Selection of fuses (including various gauges of fuse wire and specific equipment fuses).
- l. Fuse keys.
