-
- A detailed diagram of a derrick system. A vertical post, labeled (KING POST) and AMANTILLO, supports a horizontal beam. A long boom, labeled PLUMA (DERRICK), is attached to the beam. At the top of the boom is the (DERRICK HEAD) PENOL, which has a hook (HOOK) and a (DERRICK HEAD) HOIST. The boom is supported by (GUYS) OSTAS. A (DERRICK TRUNNION) TINTERO FITTING is at the base of the boom. A (WINDLASS) MOLINETE is used to operate the system, connected to a WINCHE (WINCH). The diagram includes English and Spanish labels for various components.
